Please start the success story/case study from here;

Name of the Student : ANJU.B.DAS, Madras Veterinary College, Mail jeeviyagreen24@gmail.com

Category of the success story/case study: 1 A. STUDENT VISITED ABROAD FOR INTERNATIONAL TRAINING.

I am Anju and I had attended the externship programme from September 30 to November 21 2019 in the College of Veterinary Medicine, Washington State University. The 54 days training was a better experience in terms of improving my technical knowledge and skills, communication skills and overall it gave me more confidence about my carrier. Interaction with the faculties and students gave an idea about the scope of higher studies in abroad. The method of client dealing and handling of the patients done by them were appreciative and I think involving with the activities and communicating with the people improved me in a better way which I can pass on to my friends and my colleagues.

During my training I learnt some important techniques which are listed below.

- 1.Hands on training on venous catheterization and anesthesia monitoring
- 2.Attended simulation on.anesthesia monitoring.
- 3.Participated in the clinical examination and history taking along with WSU. Students which was a unique experience.
- 4.Hands on practice on the equipments and machines using in emergency and critical .care unit..and monitoring of patients in the emergency and critical. care unit.
- 5.Observation of orthopedic surgeries and neurosurgeries which were not usually attempted in our country.
- 7.Participated in ultasonographic examination of inpatients of ECCU unit and hands on practice on ultasonographic examination on animals with the help. of WSU interns.
- 8.Attended case presentation studies on every Thursday morning on different topics which gave me an opportunity to learn about various difficult cases.
- 9.Went to WSU farm along with the students and faculty for examination of animals.
- 10.Participatd in the discussion sessions related to the case studies.

Overall it was a rich professional experience which has instilled confidence in me.

Title: Students visited abroad for international training

Key excerpts with high resolution photographs:

Myself with the faculties and fellow interns in WSU
